Summary

With a strong focus on user-centric design, I bring expertise in crafting digital experiences that are both functional and aesthetically pleasing. My approach involves deep empathy for user needs, which I translate into effective wireframes and prototypes. I thrive in collaborative environments, working seamlessly with diverse teams to produce innovative design solutions. Beyond the digital realm, I channel my creativity through music and sketching.

Experience

Product Designer @ Youknow Software House, MM (Onsite) Jan 2022 - Mar 2024

- Led the UI/UX design from scratch for Youknow Social App, a new social app aimed at engaging user experience.
- Collaborated closely with product managers and developers to ensure seamless integration of design concepts into the product.
- Built and delivered the design system based on the interface guidelines of Apple and Google to maintain consistency and make it easy for designers and developers to use.

UI/UX Designer @ BergOp Healthcare, NL (Remote) Dec 2021 - Jan 2022

- Conducted information architecture to optimize content for developing a mobile interface of the healthcare administrator dashboard from an existing desktop interface.
- Focused on maintaining and enhancing user experience (UX) to ensure the interface met the needs of healthcare administrators for on-the-go usage.
- Addressed the needs of 60% of healthcare administrators who prefer using the dashboard on mobile devices over desktops.

UI/UX Consultant @ Pico Innovation, MM (Remote) Jan 2019 - Apr 2020

- Collaborated closely with the project manager and developers to address critical usability challenges hindering user experience in both the Hospital Management System and the Point of Sale System.
- Decluttered unnecessary user flows to reduce user frustrations.
- Provided design consistency and HTML, CSS, and JavaScript code snippets for efficient developer handoff.

Other Works

Front-end Web Developer @ AMA Engineer Pte Ltd, SG (Remote) Apr 2021 - May 2021

- Owned the entire development lifecycle for AMA Engineers Pte Ltd's company profile website, encompassing both UI/UX design and front-end development.
- Developed a user-friendly and interactive frontend utilizing the Vue.js framework and Vercel for efficient deployment, guaranteeing a smooth launch of the website.

Freelance UI/UX Designer (UI focus) Jul 2018 - Present

- Designing UI components, mobile apps, landing pages, and company profile websites for startups and individuals.
- Delivering customized design solutions in collaboration with clients.
